A Compendium of Safe and Innovative Experiences for Travel Intermediaries

An initiative by:

With support from:

Introduction

COVID-19 brought unprecedented challenges to the tourism industry. The Emerging Stronger Taskforce Alliance for Action in Enabling Safe and Innovative Visitor Experiences (EST-AfA), comprising partners from both public and private sectors, was formed to seize new growth opportunities and drive the industry to emerge stronger through this crisis.

As Singapore moves towards living with COVID-19 and reopens its borders to more visitors, it is critical for the industry to work together to instil confidence and provide assurance to potential visitors that Singapore is ready to welcome them with new and innovative experiences that take their safety into consideration.

Aligned with the EST-AfA's continued efforts to promote collaboration within the industry, Association of Singapore Attractions (ASA), National Association of Travel Agents Singapore (NATAS), Singapore Association of Conference and Exhibition Organisers and Suppliers (SACEOS), Singapore Hotel Association (SHA) and Society of Tourist Guides Singapore (STGS) have worked with the Singapore Tourism Board (STB) to curate this compendium for travel intermediaries to tap on when designing itineraries for travel in the new norm.

In this compendium, you will find information on a variety of new and innovative experiences contributed by various partners across the sector. You will also find information on providers of healthcare services which are essential for travel in the new norm, such as PCR tests and telemedicine consultation services.
